### **DETAILED ACTION**

Claims 1-11, 14-16, 18, and 20-34 are pending and under consideration.

#### ***Claim Rejections - 35 USC § 101, Withdrawn***

The rejection of claims 1-3 and 11 under 35 U.S.C. 101 because they are directed to non-statutory subject matter is withdrawn in view of the amendment.

#### ***Claim Rejections - 35 USC § 102, Withdrawn***

The rejection of claims 1-3, 9, 12, 18, 21, 22, 28, and 29 under 35 U.S.C. 102(b) as being anticipated by Gonzalez-Garcia et al., IDS filed on 06/20/05, #AC, Development, Vol. 120, pages 3033-42 is withdrawn because the amended claims are no longer anticipated by the art of record.

#### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The rejection of claims 1, 4-7 and 10-12 under 35 U.S.C. 103(a) as being unpatentable over Goswami et al, IDS AD, Bioechn. & Bioeng. 1999, vol. 62, pages 636-640 in view of Gonzalez-Garcia et al., is withdrawn because the amended claims are no longer anticipated.

Claims 1-11, 14-16, 18, and 20-34 remain **rejected** under 35 U.S.C. 103(a) as being unpatentable over US Pat. 6586206 (filed 09/25/2000) in view of Goswami et al, and further in view Gonzalez-Garcia et al (cited above).

Applicant argues that the specification discloses an unexpected discovery (Fig. 7B, pages 17, lines 16-27) of increased polypeptide, not just increased viability of cells expressing Bcl-XL.

This argument has been fully considered but considered not persuasive because the unexpected result is limited to CHO cell overexpressing Bcl-XL. Limiting the scope of the claims to CHO cells or showing evidence the unexpected result apply to any cell would obviate this rejection.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
